U.S. Probation Officer Action:

As background, on March 6, 2006, our office notified the Court of the offender's recent marijuana use. Your Honor concurred with our recommendation to take no action, as he would be referred for substance abuse treatment to supplement the mental health program he was already enrolled in. Based upon the offender's unsuccessful discharge from a previous treatment program, and in consultation with his mental health counselor, our office opted to increase the number of sessions per week he is to attend.

The offender appears to have responded favorably to increased counseling, and subsequent urine tests returned negative. However, on May 15, 2006, he submitted a urine sample which tested positive for the presence of marijuana. When confronted with the test result, he admitted it was accurate and that he had used marijuana prior to being tested. The undersigned officer directed the offender to refrain from any additional drug use. Additionally, he reported for a three-way conference with a Supervising U.S. Probation Officer to discuss his drug use and overall supervision progress (he has completed four months of the electronic monitoring sentence imposed at his previous Violation of Supervised Release Hearing). At this time, we respectfully request no further action be taken. Should the offender continue to use illicit drugs or fail to comply with the treatment requirements, we will immediately notify Your Honor with a further recommendation.

Respectfully submitted:
